More than a year ago a plan was formed and adopted to care for the postoffice funds in Cuba Neely caught on to the plan and also the funds. He took care of them.

The Countess of Warwick laments bitterly that she is not a man. Well, as she can't be a man she should try to be content. She is the next thing to it, and doubtless bosses her man, if she has one.

Mr. Neely, formerly of Indiana but later of Cuba, objects to being called a carpet bagger. He does not think he deserves this. He only stole half of what came into his hands but the carpet bagger stole all.

General Otis has arrived in Washington and reports that the war in the Philippines is over. But the butchery will continue. There never has been "war" there. It was simply butchery from the start, and called war through courtesy.

A New York merchant, who had an income of $50,000, shot himself a few days ago because of despondency. He was probably depressed with the thought that he might never be as rich as Rockefeller.

An Iowa inventor comes to the front with a perforating machine in the shape of a cannon which will fire 8,640 bullets every minute. A few of these rigged on automobiles might make it right lively for people in front of them.

The American public may soon be favored with a panorama of the late eclipse of the sun, from pictures taken by one of Edison's men. The pictures, which were taken at the rate of twenty a second, are now being developed and are said to be very fine.

A Kansas City man has contrived a lightning process for disrobing chickens. He puts 'em in a box, connected with electrical machinery which drives currents of air in several directions, which combine into a small-sized cyclone and strip the chicken as bare as a billiard ball, leaving not the semblance of even a microscopic feather on it.

After graduation his first pastorate was at Jacksonville and Oxford, Ala., where he succeeded Rev. P. C. Morton, of this city. Subsequently he was called to Marietta, as stated above.

THE STATE LEAGUE.

Schedule of Games as Arranged at Managers' Conference in Raleigh.

REGARDED AS SATISFACTORY.

Season Will Begin With Games at Tarboro and Statesville—Wilmington Cranks Will Witness Thirteen Games Here--Other Notes.

Manager Ed S. Battle, of the Wilmington Athletic Association Base Ball team, returned last evening from Raleigh, where he attended a meeting of North Carolina Managers relative to the formation of a State League, the results of which conference, aside from the schedule of games, has been given in the STAR'S Raleigh correspondence.

Manager Battle says that the work of the conference was especially laborious, and the gentlemen composing it were compelled to work industriously to arrange all the details and a schedule that would meet the approbation of the team representatives in the league. All the preliminaries were, however, adjusted satisfactorily to all, and there is every reason to believe that the national game has received a great impetus in the State as a result of the meeting.

A schedule of 74 games was arranged at the meeting to be played between June 25th and August 4th, the season being opened on the day first named with games at Tarboro and Statesville between Raleigh and Tarboro and Durham and Statesville. CAPE FEAR ACADEMY.

Closed Twenty-seventh Session Yesterday Morning With Awards of Certificates of Especial Distinction.

Cape Fear Academy, one of the oldest and most thorough of Wilmington's private educational institutions, closed its twenty seventh term yesterday under the most favorable auspices. The year has been successful from every view point and Prof. Washington Catlett, the principal, has reason to be proud of the very excellent work accomplished.

Yesterday the ten days' final examinations were completed and after a few remarks by Prof. Catlett appropriate to the closing, he read the result of the examinations and awarded certificates of distinction to those pupils who had proved themselves proficient in their studies. The following is the list of awards deserving of especial mention, the names occurring in the order of excellence:

Senior Class—E. H. Adkins, Jr.

Intermediate Class (first division)—Robt. Calder, Alban Pleasants, D. C. Marshal, W. W. Storm, Fenner Gaylord, R. L Meares, Sarah Catlett, Henry Heyer, Cleveland Galloway, Z. Bell, Eugene LeGrand; (second division), Earl Gore, Robbie Branch, Jas. Pritchett, A. Rosenmann, E. H. Holmes, R. R. Bridgers, Geo. Kidder.

Introductory Class—Friddie Bear, Horace Pearsall, Louis Merritt.

For deportment Robbie Branch was spoken of as the most exemplary pupil, he having received only one demerit during the term. Master Robert Bridgers was the next highest, he having received only two.

For punctuality those deserving special mention are Earl Gore, Friddie Bear and Alban Pleasants, neither of whom were late more than twice during the session. Louis Merritt is to be commended for regular attendance, having been absent but two days during the term.

The principal places especial significance upon these qualities as he regards punctuality, regularity and deportment as essentials in a successful education and bestows deserved praise upon these pupils.

The next term opens September 18th, and Prof. Catlett already has assurances of a successful term next season.

STATE LEGISLATURE.

Both Houses Adjourned to Meet Again at Noon on the 24th of July Next.

DR. McNEILL OF BRUNSWICK

Charged With Affiliating With Negroes and Republicans—Bills Passed and Ratified--A Sudden Death--The Supreme Court Adjourned.

[*Special Star Telegram.*]

RALEIGH, N. C., June 14.—The Supreme Court to-day, at 12.30 o'clock, adjourned for the term. It is the longest term ever held in the history of the court. It remained in session until the docket was entirely cleared up, not a single case being carried over. Never but once before has this happened, and that was last year. But five cases were decided to-day. Two of these—Horton vs. Webb and State vs. Hill—set aside an act of the Legislature as unconstitutional by the usual vote of three to two, Justices Clark and Montgomery making the two and the Republican judges, Faircloth, Furches and Douglas, making the three. The opinions handed down to day were as follows: Pritchard vs. Commissioners of Morganton, modified and affirmed, with costs against the county of Burke. State vs. Hill, from New Hanover, error. State vs. Medlin, from Gaston, affirmed. Crampton vs. Ivie, from Mecklenburg, new trial. Hutton vs. Webb, from Burke, petition to rehear dismissed. The Court adjourned *sine die*.

The State Board of Agriculture appropriates $1,500 to the State Fair.

Senator Jackson, of Lenoir county, was found dead on the piazza of his boarding house this morning at 5 o'clock. He was sitting, leaning back in a chair as if asleep, and was discovered by a newsboy. It was his custom to rise early and sit on the piazza waiting for his paper. Heart failure was the cause of death.

The Legislature.

Most of the morning session of the two hours of the Legislature was devoted to memorial services in honor of deceased members and to making arrangements for the funeral of Senator Jackson, whose body was attended to his home by a legislative committee of six.

To night several bills were passed by both houses and all the work of the day was ratified.

At 10:40 both houses adjourned to meet here again at noon on July 24th.

The feature of the session to-night was a debate in the House on a bill to give Brunswick county five commissioners instead of three, which was defeated. In the course of the debate Mr. Ray, of Macon, charged Mr. McNeill of Brunswick with affiliating with negroes and Republicans in his opposition to the amendment. He added that if he had been nominated as Mr. McNeill had, and then had not been willing to stand by the instructions given him by the convention, he would resign; that would be the manly thing to do. Mr. McNeill replied that he had a right to his own opinion, and he would exercise that right; that he had voted against the amendment in the House on two occasions, and he would vote against it at the polls. He told the convention that nominated him this, he said, and any resolutions passed afterwards could not bind him.

Following are the bills ratified to-night:

Act to amend Chapter 325 of the Laws of 1899; to submit the question of dispensary or no dispensary in Swain county; to establish stock law in certain portions of Nash county; to abolish the office of county treasurer in Henderson county; to regulate the sale of spirituous liquors in Macon county; to establish graded schools in Lexington; resolution to pay expenses of the funeral of Senator Jackson; to appoint a committee to accompany the remains of Senator Jackson; to obtain information from the State Treasurer; directing printing of the report of the special committee to investigate the penitentiary and agricultural department; directing the commissioner of Edgecombe county to draw a jury; to pay Eugene C. Beddingfield for services as corporation commissioner; to amend the Western District Circuit Court; to repeal the law passed in 1899 in reference to cotton weighers for Salisbury; to pay certain persons for service in the interest of the shell fish industry—Democrats turned out by the Supreme Court; to amend Chapter 228 Private Laws of 1899; in regard to a tram road in Moore county; in regard to having printed journals and laws; amending the corporation commission act; joint resolution to adjourn till Tuesday, July 24; to pay certain claims in the interest of the fish industry; to permit commissioners of Onslow to use certain surplus funds; to pay page's actual travelling expenses; to regulate the issuing of liquor license in Northampton county; for the relief of certain teachers in Craven county.

Came On The Excursion.

Among those who came down yesterday morning on the excursion from Goldsboro and remained over in the city were: Dr. F. H. Arthur, Magnolia; Mr. Henry A. Grady, Turkey; Mr. D. S. Hines, Faison; and Mr. M. J. Best, Goldsboro.

At a meeting of the Wilmington Lodge of Elks last night five members were initiated into the order. They were: Mr. John J. Fowler, Mr. H. McL. Green, Mr. J. E. Benton, Mr. Emmett Levy and Mr. John Donlan.

A number of ladies met with the committee on floral parade at The Orton yesterday afternoon at 5 o'clock and the action taken by them was the decision to have the proposed parade and to make it one of the Tournament's most attractive features. It is now an assured fact and every possible effort will be exerted to make it a big success.

Southerland, of Fayetteville; Mr. W. B. Southerland, of Rose Hill; Mrs. J. B. Newton and Mrs. Simmons, of Pooler, Ga., and Misses Sallie and Clara Southerland, of Rose Hill. Only last Tuesday another sister, Miss Ella Southerland, died at her home at Rose Hill.

The funeral will be held from the residence of his brother this afternoon at 4 o'clock and the interment will be in Oakdale cemetery.

CAMPAIGN LIES NAILED.

The Republican State committee, with headquarters at Greensboro, run by Abner S. Holton, white, and Abe Middleton, black, is now industriously occupied in sending out cart loads of campaign documents, many of which are devoted to misrepresenting the sayings and doings and the motives of the advocates of restricted suffrage in this and other Southern States, but especially in this State, where that is now a pending question.

One of these documents purports to give the opinion of prominent public men, including prominent Democrats, against the constitutionality of the proposed amendment. Among those cited as pronouncing it unconstitutional was Senator Vest, of Missouri, who, in reply to an inquiry by a citizen of this State, answered that his opinion had never been asked on that question, that he had never expressed any opinion, and had never read the amendment on which he is said to have expressed this opinion. But that doesn't make any difference to the machine runners who have thus quoted him for they will stick to it and continue to circulate that document.

Another one of these documents that was caught on the fly misrepresents a portion of the inaugural address of Governor Heard, of Louisiana, and makes it appear that he said the constitutional amendment of that State disfranchises illiterate white men as well as negroes. Here is what Governor Heard said:

"The wise limitation of the suffrage, under the present Constitution, to a property-owning and intelligent electorate, has served to eliminate from the exercise of the suffrage the vast mass of venality and ignorance which has heretofore been a constant menace to good government.

"These limitations and restrictions of the franchise eliminate from the electorate a large portion of the negro element, thus committing the destinies of the commonwealth to the hands of its white citizens.

"This was done for the purpose of protecting not only the white, but the colored race as well, from the evils of corrupt government, and to preserve the rights and liberties of both. It therefore becomes an imperative duty, now more than ever before, to deal justly and fairly with this class of our people, and to see to it that they are fully protected in the employment of their rights of person and property, and to insure the betterment and elevation of their moral and material condition."

When the misrepresentation to which we have referred was caught on the fly, Chairman Simmons wrote to Governor Heard, asking whether he had been correctly reported in this Holton version, and received the following in reply:

STATE OF LOUISIANA, EX. DEP'T,
Baton Rouge, June 9, 1900.

Hon. F. M. Simmons, Chairman Democratic State Executive Committee, Raleigh, N. C.:

DEAR SIR—Your letter of the 6th inst. received, with enclosed printed circular, giving extracts from my inaugural address.

The conclusion drawn from these extracts by the publisher of this circular are not warranted, and the statement contained in the circular to the effect that the Democratic party had deprived any white people in Louisiana of their right of suffrage is not true. Under the new constitution of Louisiana, adopted in 1898, there is an educational or property qualification required. This educational qualification is that "he shall be able to read and write," and a simple test of this is required in the shape of a blank form of application to be filled out by the applicant. If the citizen cannot read and write, but is possessed of $300 worth of property assessed for taxes, he is thereby qualified. But our Constitution went further and provided that no male person who was, on January 1st, 1867, or at any prior date, entitled to vote in any State of the United States, and the sons and grandsons of any such person, should be denied the right to vote because he had not the educational or property qualification. This provision, which became known as "Section 5," opened the door to practically every white man in the State, whether rich or poor, educated or illiterate. It was furthermore provided that those claiming the right of suffrage under this section should have the privilege of going on a PERMANENT REGISTRATION ROLL, to be put on record in the office of the Secretary of State, so that no registration officer or other official could ever deprive them of their right to vote.

The reference to the beneficial effects of the suffrage mentioned in my inaugural address was in general terms, and considered from a general standpoint the vast improvement in the electorate of the State since the elimination of the large mass of negro voters. Our people are, of course, all familiar with our suffrage and election laws, and it was not necessary to go into details on such an occasion.

I regret that any one outside of Louisiana should have used my remarks to misrepresent the action of the Democratic party, which has ever been the true friend of all classes of white people within her borders.

Very respectfully,
W. W. HEARD.

Governor Heard couldn't see what there was in his language to give ground for the construction put upon it by this lying circular, and neither could the concoctors of the circular, but that didn't matter for the misrepresentation served their purpose, and it was pretty safe as few of the people, if any, to whom the circular was sent had read Governor Heard's address, and consequently could not detect the misrepresentation.

As further bearing upon the effect and constitutionality of the Amendment four of the Representatives in Congress from Louisiana in reply to inquiry, sent the following :

HOUSE OF REPRESENTATIVES,
WASHINGTON, June 4, 1900.

We, the undersigned, members of Congress from the State of Louisiana, state that the suffrage amendment to the Constitution of Louisiana is giving great satisfaction to the people of the State. There is no longer any question being made as to its constitutionality, and that while it has eliminated the ignorant negro vote, it has not disfranchised the uneducated native-born white man.

ADOLPH MEYER,
JAS. E. RANSDELL,
PHANORES BREAZEALE,
ROBERT C. DAVEEY.

As far as the testimony of Governor Heard and these Representatives in Congress goes it ought to be satisfactory as to the beneficial workings of the amendment in that State and to the way in which it is viewed by the white people, literate and illiterate. If white men in that State are disfranchised, as these circular senders wish to make white voters in North Carolina believe they are, why haven't we heard some complaint from them? They could speak through public meetings and through the press, and yet not a word comes from them, which is either very marvellous or they are a marvellous kind of people to quietly submit to being disfranchised and put upon the same plane with the disfranchised negro. But the fact is, there is no such disfanchisement in Louisiana, and that's why there has been no complaint.

Misrepresentation by secret circulars has always been one of the methods of campaigning by the Republican machine managers, and the bigger the lie they print the better they think the joke is, after the election when they some times even boast about it, as Ike Young used to when he humorously remarked that his maxim was to "lie like h—l and stick to it," a maxim in which nearly all the runners of the machine have followed him ever since and which isn't lost sight of in this campaign. They are caught sometimes and nailed but they don't mind that if the lie had got a good start before the pursuit began.

TWENTY-SEVEN TO ONE.

The white managers of the Republican machine in this State have been doing their level best to keep the colored contingent in the shade, and prevent them from showing up in conventions, the object of which was to fool white voters and make them believe the negro isn't in it—until after the election on the constitutional amendment.

They have succeeded pretty well in some counties, not so well in others, and not at all in some others. Bertie was one of the counties in which the colored sovereigns grabbed the reins, ignored their white associates and would-be bosses and ran the machine themselves and in their own way. There were in the Republican convention for that county twenty-seven negroes to one poor, lone, so-called white man, who occupies the distinguished position of chairman of the executive committee, for the reason, perhaps, that he can read and write. The following published in the Raleigh *News and Observer* tells how that convention was composed:

NORTH CAROLINA, BERTIE COUNTY:

We, the undersigned citizens of Bertie county, being duly sworn, depose and say that we were present at the county convention of the Republican party of this county, held in the court house in Windsor on the 4th day of April, 1900, and saw the same in session.

The convention was called to order by R. H. Norfleet, a white man, who is chairman of the executive committee. He was the only white man in the convention, the rest all being negroes. There was no other white delegate present, and there were present twenty seven colored delegates, three from each township in the county.

E. E. ETHRIDGE,
W. R. JOHNSON.

Sworn to and subscribed before me this 25th of May, 1900.
(Seal) W. L. LYON,
Clerk Superior Court.

How is that for negro domination, which the white Republican machine runners pooh, pooh? Don't they run the party in that county, and if numerically strong enough, won't they run the county? And so it will be in many other counties, if the constitutional amendment be defeated, where the negroes have the the leadership to encourage them to assert themselves. The only way to avert that will be to ratify the amendment and make it impossible.

NO SURRENDER IN HIM.

It seems there is a paper published at Faison, in Duplin county, called the *Sun*, which shines for the colored folks. We do not know the paper, nor the scribe who does the writing for it, but judging from the following extract, which we find in the Raleigh *News and Observer*, he must be one of those long range never-surrender sort of warriors. Referring to the address of Prof. Dudley, on which we made some comment yesterday, this valiant scribe exclaims:

"Prof. Dudley says we should quietly prepare to surrender our political rights. We shall not do anything of the kind. If we die trying to maintain them, we shall do it with our faces to the foe, with as dear a cost to him, the enemy, as possible."

He must be one of the fellows who told Chairman Holton that the colored contingent in this State were organizing to protect and defend their rights, which information Chairman Holton, when he went to tap Hanna for some funds, imparted to him and to the President, Perhaps this sable declaimer has been seriously reading Spencer Blackburn's assassination oratory and the "at their throats" effusions by Editor Fortune, of New York, and has resolved to be in it when the "assassination" and "throat cutting" carnival arrives. In the meantime, however, he will have time to cool down, reconsider and change what little mind he has, so it isn't worth while to take him as seriously as he takes himself just now. If any disturbance should occur in his vicinity that would call for shot-guns or anything of that kind he would doubtless have sudden and pressing business somewhere else.

INTERVIEW WITH BRYAN.

That was an interesting interview with Mr. Bryan Wednesday at Chicago, giving his views as to the issues in the next campaign. He is thus quoted :

"I say that I think the three big questions before us are money, trusts and imperialism. The money question, of course, includes the question of silver and of paper money; the question of imperialism includes militarism and the policy of which our national administration's work in the Phillipines and the attitude on the Boer question are samples.

"I believe the principles adopted in the platform of 1896 were adopted as a part of the party creed, never to be departed from. I do not think they should be or can be departed from this year.

"That platform must, however, be added to, as new issues arise. As I do not expect to be a delegate to the national convention I cannot presume to discuss the form in which these principles shall be stated in the platform to be adopted there.

"I cannot undertake to say what will be the paramount issue. No man can. One man thinks one question is the biggest and another man thinks another is."

This is interesting because it has been asserted that Mr. Bryan would insist upon making not simply the money question or bimetallism, but 16 to 1 the paramount issue. But here he tells us that he does not expect to be a delegate to the convention and therefore cannot presume to discuss the form in which the principles shall be stated in the platform nor undertake to say what the paramount issue will be. He leaves that to be decided by the wisdom of the convention in which he and the people whom the convention is supposed to represent have confidence. It means, too, that he as a loyal Democrat will accept the decision of that convention and stand upon the platform adopted, as every other loyal Democrat will.

His Life Was Saved.

Mr. J. L. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. Regular size 50 cents and $1.00. Trial bottle 10c. at R. R. — Raleigh *Post*: Constable Zeb Lancaster, of Wayne county, was shot Wednesday evening by a negro named White. That morning he arrested the negro, who broke and ran, the constable firing several shots at him. Later in the evening White was located and Lancaster attempted to rearrest him. Coming up with him at Frank Murgrave's mill, in Stoney Creek township, the negro, White, pulled a pistol and shot the officer. Drs. Spicer and Robinson attended the wounded man. It is thought Lancaster will die. Sheriff Scott is on the lookout for the negro.

— Asheville *Citizen*: Mat McInturff of Yancey county has resolved hereafter to abjure all jokes. Never again will he pretend that he is anybody except Mat McInturff of Yancey. This unalterable determination was caused by the unhappy termination of a little pleasantry he attempted the other day. He was accosted by a deputy sheriff who inquired if he was not D. H. Stancill of Tennessee. For a joke he replied that he was. "Come along," said the deputy; "I'll guarantee that you won't escape from me, like you did from the penitentiary." McInturff was placed under guard, and the sheriff at Elizabethton, Tenn., was telegraphed that Stancill, an escaped convict, with a 20-year sentence, was in custody here, The sheriff started for Asheville immediately. Before he reached here the mistake was discovered, but as a matter of courtesy to him, which the prisoner did not at all appreciate, the latter was hold. He was released when the sheriff reached here. McInturff exactly filled the description of the escaped convict sent out with an offer of a reward.

A Fine Baby

Makes any mother proud. There are a great many proud mothers whose children have been puny and sickly until they began the use of Dr. Pierce's Favorite Prescription. That medicine which

"makes weak women strong" has given them the strength to bear hearty, and healthy children for the first time.

"Six years ago after the birth of one of my children I was left in a weak run down condition," says Maria O. Hayzel, writing from Brookland, D. C. "My health seemed utterly gone. I suffered from nervousness, female weakness and rheumatism. Life was a burden. I doctored with three different physicians and got no relief. I tried several patent medicines, all with the same result. I began to get worse and to add to the complications I suffered terribly from constipation. I chanced to see one of your advertisements and I commenced to take Dr. Pierce's Favorite Prescription and 'Pleasant Pellets' and began to improve right away, and continued improving and gaining in strength. I cannot express the relief it was so great. Seven months later my little daughter was born without much trouble. I feel that I would never have been able to endure my confinement only by the help due solely to Dr. Pierce's medicines. She was a fine healthy child and the only one I have ever been able to nurse. She is now two years old and I have never had to take any medicine since, so I feel that your medicine has made a lasting cure with me."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to defray expense of mailing *only*. Send 21 one-cent stamps for the book in paper binding, or 31 stamps for cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

A Nose For Tobacco.

Lord Deas, a Scotch judge, was once hearing a case when the smell of tobacco permeated the room, and, being in opposition to the rules, search was made to trace the offender, without avail. Finally the ushers said it must come from the retiring room of the lawyers. This his lordship scouted, saying:

"No such thing. Dae ye mean to tell me the gentlemen of the bar smoke common Limerick twist?" Strange to say, shortly after an Irishman in court discovered the pipe he had placed slight in his pocket had set fire to the lining, and it was loaded with Limerick twist. The judge had a good nose and knew what he was talking about.—Kansas City Times.

A Good Boy.

Uncle George—No, Tommy isn't so bad. He's what I call a good boy. When he asks liberty to go out to play and it is refused him, he never makes any fuss.

Aunt Hannah—And sits right down in the house?

Uncle George—Oh, no! He goes right out and has his fun just the same as if he had been given permission.—Boston Transcript.

No Right To Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blothes, skin eruptions and wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 25 cents at R. R. BELLAMY'S Drug Store. †

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, June 14.—Everything pointed to further substantial successes for the bull contingent on the Cotton Exchange to day. Advices from the crop center were far from reassuring. The presence of numerous foreign buying orders, as well as an exhibition of confidence on the part of certain New Orleans interests recently credited with the engineering of a Summer month bulge, added to the nervousness of shorts, while at the same time serving to create friendliness towards the market and investment circles. The opening was steady, with prices three to six points higher, later increased to a matter of six to eleven points. All things worked together for the interest of the bull faction most of the morning, but toward midday light profit-taking set in and materially cut down the lead, though in no way undermining the convictions of stalwart longs. Private wires reported excessive rains in the Memphis district and unsatisfactory crop conditions generally in the central belt. Southern spot markets were reported to have taken a firmer turn on increased export demand, while the official forecast pointed to further rains over the country west of Texas. The whole character of the market changed suddenly soon after midday under a wild scramble to sell for both accounts, under which prices fell to below the closing of last night. The break owed its existence primarily to a rumor that a world-wide known New York commercial house had suspended without warning. It was later proved, however, that the house in question had closed its doors for the day only, owing to the death of a member of the firm. The central diction failed to reassure the bull crowd, however, and throughout the rest of the afternoon the market was feeble and nervous, with prices unable to rally much from the low point of the day. On the down turn the South and Europe were leading sellers, though considerable long stuff came out. The close was quiet, with prices two to five points net lower.

FARM AND GARDEN

PRACTICAL FORESTRY.

How to Make Woodlands Profitable. Waste In Ordinary Lumbering.

The importance of good forestry in this country is becoming more appreciated not only in connection with extensive timber tracts, but with the smaller wood lots upon farms. Practical forestry in the Adirondack region as recently carried on by forest owners under advice from government experts serves to illustrate methods of management that are most profitable and equally applicable elsewhere on either a large or a small scale. It appears from the report of their work that

SPRUCE STUMP CUT EIGHTEEN INCHES TOO HIGH.

losses through ordinary lumbering are considerable in the aggregate. Some of the items connected with unnecessary waste are as follows:

Where the lumbering is done under the system of contracts and subcontracts, the temptation for a jobber to do careless work is very great. Unless carefully watched he is apt to cut unnecessarily high stumps, to leave large tops in order to avoid the trouble of trimming off the branches, to leave trees lodged in hard woods and otherwise to fall below the standard of good lumbering.

The principal loss arising from careless lumbering is occasioned by (1) needlessly high stumps, (2) large tops, (3) skids left in the woods, (4) valuable timber used in leveling roads and (5) destruction of small growth in felling, skidding and hauling.

When the trees are felled by chopping, the stumps are cut at the point at which the ax naturally falls when the chopper stands erect. This is usually about three inches above the ground. The majority of trees, however, are somewhat lower, averaging about 30 inches in height. The sawyers protest against cutting low stumps, because it tires their backs to stoop over. Experience by careful lumbermen has proved that such high stumps are entirely needless.

Where lumbering is done under contract it has been the usual custom in the Adirondacks to cut only logs which will scale six inches at the top end. Where timber is cut for pulp smaller logs can be used, and many companies which operate their own camps compel the choppers to cut logs as small as five and often four inches. The average size of the top log is nearer eight inches. There are in some cases 4 to 12 feet of wood left in tops which is fit for pulp and which is actually so used by many companies.

The point will at once be raised that the tops are of inferior quality. The reply is that many companies use this material and that the total amount is so great that it would pay to utilize it even at only one-fourth the price of the rest of the timber.

The majority of skidways are built of spruce. It is the custom to leave the skids in the woods, and the owner loses not only the stumpage value of the timber thus wasted, but also the advantage of future increment which the trees would take on if left standing.

Destruction of small growth in hauling takes place on steep roads, where the teamsters frequently scatter spruce

SPRUCE CUT AND LEFT BY TEAMSTERS.

brush to check the speed of the sleds. It often happens that all the young spruce left standing by the choppers near such steep roads are cut to supply the brush for this purpose, and the stems are left lying on the ground to decay.

The Sheepyard.

Not every farmer keeps sheep, but those who do are often tempted in winter to wish the cows were all sheep. They need no milking, no grooming, no cleaning out of stables, but they do need to be well fed in winter with good hay, a little grain and some roots, and they want pure water where they can go to it as they please. The sheepyard may be as cold as all out of doors if it is only kept dry and supplied with clean bedding, and the sheep will be better for a run out of doors in all pleasant weather if the ground is not covered with snow.

Went Papa One Better.

"I love you very much, papa," said 5-year-old Willie, as he crawled up on his father's knee.

"And I love you, too, Willie, when you are good," replied the father.

"But, papa," continued the little fellow, not to be outdone, "I love you just the same, even when you ain't no good."—Chicago News.

No Case on Record.

"Brooks," asked Rivers, "do you know what will cure a wart?"

"I never heard of a wart being sick," said Brooks, without looking up from his writing.—Chicago Record.

Times Change.

Mrs. Watts—Goodness me! This is the third time you have been here this week! Dismal Dawson—Madam, they was a time once when the wimmin didn't make any objection to my callin so often.—Indianapolis Journal.

No matter how hot it is on the deserts of Arizona and southern California—and sometimes the thermometer goes up to 110 and 120 in the shade—you never hear of a sunstroke.

HE PROFITS BY IT.

The Small Boy Makes Good Use of His Own Mishap.

What so proud as a small boy with his arm in a splint or going about on crutches? He knows he is a hero, for instead of being snubbed and unnoticed strange folk look at him as they pass, and this tickles his vanity, for he knows they are curious as to the sort and method of his hurt. The boys, he knows, are envious of him, of course, because he can stay home from school and hasn't any chores to do and because he is noticed. This interest among his friends is incense to his soul, because it gives him a brief and unwonted power. He lies around until school is out and meets the boys. Prone on the grass, with his crutches by his side, he looks at the ants carrying things into their hill, and whenever he sees an ant with a load he deprives it of its plunder, which he sets back to see the ant go after it and do the work over again.

When the boys come out, he picks up his crutches, tucks them carelessly under his arms and does some fancy steps and gymnastics on his sound leg, swinging the other carelessly and gracefully, as if it were nothing to him. Then he "shows off" what he can do with the crutches. He takes long swings ahead with the crutches, doing a little fancy step when his foot touches the ground. By this time he has got the other boys properly and profitably excited.

"Aw, say, Bill; lemme swing on 'em awhile. I bet I couldn't do that. Could you, Tom?"

"You bet I could," says Tom undiplomatically and then and there forever ruins his chances of trying the crutches.

"What'll you give?" asks Bill carelessly.

"I'll give you this string," says the other, fishing a bit of dirty string out of his pocket.

"Aw, I don't want no strings," says Bill imperiously. "Say, these crutches is great to do tricks on."

"I'll give you this rubber ball if you'll let me try 'em every day for a week," says another. And the other boys watch him of the two sound legs cut monkey shines for awhile, while Bill rests on the grass. Then others bring forth their treasures, and Bill passes a pleasant and profitable evening. And every night, until he is well and must do without crutches, he will come forth to lure away the property of his friends for a chance to pretend they are lame and should be walking on the cripple's aids. It takes a boy to make a bargain.—Kansas City Star.

WILMINGTON, N. C.

FRIDAY MORNING, JUNE 15, 1900.

MERCHANTS' ASSOCIATION.

Directors Yesterday Afternoon Endorsed Action of Magistrates With Regard to Bonds for Public Roads.

At the regular meeting of the Board of Directors of the Merchants' Association held yesterday afternoon at 3 o'clock, the question of an endorsement of the movement on foot to induce the Legislature to ratify a bill by which the County Commissioners would be authorized to issue $50,000 in bonds for permanent road improvement came up and was discussed at some length by those present, among whom were Col. W. A. Johnson, presiding, Messrs. M. W. Jacobi, W. E. Worth and S. H. Fishblate. The proposition met no opposition, and upon motion of Mr. Fishblate the following resolution was adopted:

"*Resolved*, That the Merchants' Association concur in and approve the action of the magistrates at their late meeting, asking the General Assembly to enact a law empowering the County Commissioners to issue bonds to the amount of $50,000 for permanent road improvement."

Other items of business transacted at the meeting were principally routine and of no very general interest.

WILL BE RESUMED HERE.

Hearing in Railway Tax Assessment Cases Will Begin Again June 22d—More Time Asked.

[*Raleigh Post, 14th.*]

The hearing before the Standing Master in the railway taxation cases is to be resumed in Wilmington, N. C., June 22nd, one week from to-morrow.

Yesterday representatives of the railroads appeared before Ex-Judge James E. Shepherd, the Standing Master, and asked for a renewal of the hearing at Wilmington next Monday. The Standing Master was forced to deny the request by reason of the fact that he will be in New York at that time taking evidence in the taxation case of the Western Union Telegraph Company.

Both the railroads and the Corporation Commission were each allowed three months in which to offer testimony. The three months allowed the railroads will expire June 28th, so that they have only six days in which to present witnesses. It was learned yesterday however, that the attorneys for the railroads will petition Judge Simonton for additional time in which to present their case. The petition for additional time will be made on the grounds that the railroads were led to believe that the Corporation Commission desired to compromise the cases.

The representatives of the railroads who were here to-day in the case were Colonel Warren G. Elliott, president of the Wilmington and Weldon; Capt. Charles Price, attorney for the Southern Railway; Mr. R. O. Burton, attorney for the Atlantic Coast Line and Major John D. Shaw and Captain W. H. Day, attorneys for the Seaboard Air Line.

The impression has prevailed that the railroad was delaying the hearing The railroad people deny this emphatically.

RESOLUTIONS OF RESPECT

Adopted by Merchants' Association to Memory of Col. Roger Moore.

At a meeting of the Board of Directors of the Merchants' Association held yesterday afternoon the following tribute of respect regarding the late Col. Roger Moore, as drawn by the secretary, Mr. P. Heinsberger, were unanimously adopted upon motion of Mr. M. W. Jacobi:

WHEREAS, In the death of Col. Roger Moore our city received a shock from which it has not yet fully recovered; and whereas, it was like the fall of a great tree in the forest; other smaller trees might fall and their fall be little felt, but this giant great is missed, and its fall deplored.

Resolved, That we of this Merchants Association have suffered by his death in the removal of a man of courage and nobility and a merchant of sterling integrity. He was faithful to the trusts committed to him, devoted to the things which he believed to be right; loyal to friends and chivalric to his foes. In counsel he was conservative but earnest, perserving but prudent, his heart warmed to old fashioned honesty and cleaved to what was good; we may well resolve to emulate his virtues and cherish his memory and his good deeds.

Resolved, That this tribute of respect to his memory be spread on the records as an expression of our appreciation of his virtues, and that a copy be sent to the family, with the sincere assurance of our profound sympathy.

Chairman Jones Arrives to Make Arrangements for the Convention.

By Telegraph to the Morning Star.

KANSAS CITY, June 14.—Senator James K. Jones, chairman of the Democratic National Committee, arrived here to-day to preside over the sub-committee meeting to-morrow. The committee will decide finally on arrangements for the national convention in July.

Mr. Jones visited the convention hall, in course of erection, and talked with the local committees on arrangements. The principal theme discussed will be the charge that exorbitant rates are being asked by hotel proprietors.

National Committeeman Champan, of Michigan, also arrived and together they visited the hall. Chairman Jones said: "I will talk the hotel situation over with the sub-committee and then issue a statement to the Associated Press, telling exactly how matters stand."

SLOW PROGRESS TOWARDS PEKIN.

International Expedition Commanded by Admiral Seymour Delayed.

A FIGHT WITH THE BOXERS.

Chinese Troops at Pekin Will Oppose the Foreigners—The Relief Forces Cannot Reach Pekin Before Next Sunday--Grave Situation.

By Cable to the Morning Star.

LONDON, June 14.—A special dispatch from Shanghai says an unconfirmed report has reached here from Tien Tsin to the effect that a foreign legation has been burned and that a minister has been killed. The names, it is added, are withheld, pending a confirmation of the report. It is further rumored here that the international relief parties are experiencing great difficulty in regard to provisions and water.

It is believed that the delay has been caused by the fear that the force was insufficient to overcome the opposition that might be encountered and thus precipitate a massacre at the capital.

It is added that the Japanese have sent two more cruisers and have landed three hundred additional troops.

A telegram received from Yunnan Fu says that the English and French missions there have been burned and that the foreign residents have taken refuge in the viceroy's residence. The trouble, this dispatch says, is reported to be due to French intrigues.

TIEN TSIN, June 13.—The international expedition is now at Lang Fang, half-way to Pekin. The troops found the station destroyed and two hundred yards of track torn up. Upon approaching the station they found the Boxers still carrying on the work of destruction, but the latter bolted into the village upon the approach of the advance party. A shell from a six-pounder was dropped into the village and the Boxers fled up the line. Above the station a small party was discovered engaged in tearing up the track, but a few long range shots drove them off. The patrol returned this morning and reports that a mile and a quarter of the track has been destroyed. The expedition will remain for the present at Lang Fang.

A courier who arrived this morning from Pekin and Lang Fang brought a letter from the American legation stating that General Tung Fuh Siang intends to oppose the entrance of the foreign troops into Pekin. Ten thousand troops are guarding the south gate. The courier reports that it is said that upwards of two thousand Boxers are in the immediate neighborhood of Lang Fang.

TIEN TSIN, June 14.—Railroad communication between this place and Admiral Seymour's international force has been cut three miles beyond Yang Tsun. Two bridges have been destroyed. It is rumored here that the Boxers are determined to burn Tien Tsin station to-night.

Owing to the extensive damage done to the railroad line, it is now feared the international troops cannot reach Pekin before Sunday.

WASHINGTON, June 14.—A dispatch has been received at the British embassy here from Admiral Seymour, in command of the international troops now forcing their way from Tien Tsin to Pekin, The dispatch disclosed the extreme difficulties encountered, and stated that the progress was only three miles for the preceding twenty-four hours. The commanding officer felt that it would be desirable to have additional forces in order to meet every contingency, although the general feeling was expressed that the trouble would be less difficult to deal with than had been expected. It is calculated that with the three miles tediously covered in the twenty-hours preceding the admiral's dispatch, which is dated yesterday, the international force was now twenty-five miles from Pekin. There is every indication, however, that the twenty-five miles stretch will be about the most difficult of the entire route. The dispatch of the admiral makes no mention of fur ther engagements with the Boxers.

Proposed Partition of China.

LONDON, June 14.—A special dispatch from Shanghai, dated to-day, says:

"A report has reached here that the British, American and Japanese ministers in Pekin favor the restoration of Emperor Kwang Su, but that the French and Russian ministers insist upon the powers taking charge of China. It is further reported that the respective divisions of the country have already been assigned. The belief is that the withdrawal of the British ships from the Yang Tse Kiang is an indication of Great Britain's disclaimer of the sphere theory."

Later ports from Tien Tsin confirm the news of the burning of the Japanese legation but the rumor that a minister has been murdered is not confirmed.

Fifteen hundred Russians with four guns have arrived outside of Pekin. This makes 4,000 Russians who have landed.

It is regarded as certain that the Japanese government will take active steps concerning the murder of the chancellor of the Japanese legation.

In consequence of a disturbance at Che Foo the German flagship and H. M. S. Phoenix have returned there. A Russian warship with six hundred troops has gone to Hankow.

The Chinese desperadoes at Quin Chan, forty miles from Shanghai, have seized three steam launches and treated passengers piratically.

Missions Destroyed.

SHANGHAI, June 14.—A dispatch from Chung Kin says that a riot has taken place at Yun Nan Fu. The buildings of the China Inland mission were partially destroyed, and those of the Roman Catholic and Bible Christian missions were utterly demolished. All the missionaries are safe.

A Russian troop ship passed up the Yang Tse Wednesday, June 13th. It was reported that her troops were to be landed at Hankow, but the Russian officials at Shanghai explain that the transport has merely gone to Hankow to load for Odessa and the troops on board are time-expired men on their way home.

Critical Situation at Pekin.

LONDON, June 14.—A special dispatch from Shanghai says the position of the legations at Pekin is most critical. According to this dispatch 30,000 Chinese troops are drawn up outside the gates of the city to oppose the relief force, and guns are trained on the American, British and Japanese legations. The American, Russian and Japanese ministers have sent couriers to Tien Tsin asking for 2,000 troops of each nationality.

The United States gunboats Yorktown and Castine left yesterday for Tong Ku. There is no foreign warship there now.

Japanese Troops.

YOKOHAMA, June 14.—Japan is about to send a mixed regiment to China. The government press declares that Japan alone could suppress the revolt, but she must first win the confidence of the powers and avoid acts likely to awaken suspicion.

HONG KONG, June 14.—Four companies of the Hong Kong regiment, a mountain battery and a field battery of Asiatic artillery, with a battery of 2.5 inch guns, start for Tien Tsin to-night.

The Fusiliers are expected to sail on the Terrible, June 15th.

Massacred by Boxers.

BRUSSELS, June 14.—Confirmation has been received of the report of the massacre of two Italian and one Swiss engineer employed on the Belgian railroad in North China. The sister of the Swiss engineer was also killed and two other persons are missing. The rest of the French and Belgian engineers reached Pekin and Tien Tsin in safety.

The Franco-Belgian company has three hundred armed men guarding its main track, which is still open for one hundred miles.

A Serious Engagement.

LONDON, June 15.—The *Times* publishes the following dispatch from Tien Tsin, via Shanghai, June 14th:

"A serious engagement has occurred between the International column and the Mohammedan troops of General Tung Fuh Siang, near Pekin."

Byron Brennan, British consul at Shanghai, who is now in London, says that these Mohammedan troops are armed with machine guns and repeating rifles.

WRECKS ON THE SOUTHERN.

Passenger Trains in Collision Near Atlanta--Train Ditched Near Asheville. The Killed and Wounded.

By Telegraph to the Morning Star.

ASHEVILLE, N. C., June 14.—The north-bound vestibule on the Southern railway, which left here at 5.10 this morning, was wrecked four miles east of here. The train consisted of eight coaches and two engines. Both engines left the track, rolled down an embankment, taking two coaches with them. The engines were completely wrecked. The colored fireman was fatally hurt and the baggage master and one engineer badly bruised.

ATLANTA, GA., June 14.—A north-bound passenger train on the Southern railway collided this morning with an incoming accommodation, near Belt Junction, five miles from Atlanta. Both trains were filled and running thirty five miles an hour when they came together.

Killed—Reuben R. Mayfield, engineer of the accommodation train; Benj. Davis, brakeman. Injured—Wm. N. Hayne, Atlanta, fireman; W. A. Sharp, Greenville, S. C.; Miss Davies, Gainesville, Ga.; W. C. Davis, Atlanta, engineer; Robert McBride, fireman; Julius Wilheit, Atlanta, express messenger; J. H. McGregory, Atlanta, baggage master.

Engineer Mayfield applied the air-brakes when he saw the north bound train rounding a curve and stood at his post. The wreck was caused by the failure of the operator at Belt Junction to hold the northbound train.

KENTUCKY DEMOCRATS.

State Convention—Delegates to Kansas City Instructed for Bryan.

By Telegraph to the Morning Star.

LOUISVILLE, KY., June 14.—The Democrats of Kentucky met in convention to-day to select delegates from the State at large to the national convention at Kansas City.

Senator Blackburn read the report of the committee on resolutions. The report re-affirms the Chicago platform and instructs the twenty-six delegates from Kentucky to cast their votes for Bryan, and to vote as a unit on all questions. The Republican national policy was denounced in its entirety, as were separately imperialism, the Porto Rican tariff bill, the maintenance of an army in the Philippines and the financial policy. Sympathy was expressed for the two South African Republics. Trusts were denounced. The Democrats of Kentucky were congratulated for their course in the recent troubles. The assassination of Goebel was declared to be the result of a Republican conspiracy, and Wm. S. Taylor and his official acts were denounced.

SEVENTY-FIVE MILLION DOLLARS.

Deed of Trust from S. A. L. to Continental Trust Company of Baltimore.

By Telegraph to the Morning Star.

PORTSMOUTH, VA., June 14.—The biggest thing in the way of a mortgage that ever came to the Norfolk county clerk's office was received to-day, when a deed of trust from the Seaboard Air Line Railway Company to the Continental Trust Company of Baltimore was recorded, conveying all property of every description of that road, to secure the issue of $75,000,000 first mortgage fifty year five per cent. bonds. The mortgage was first recorded in Petersburg, and will be recorded in six States as follows: Virginia, North Carolina, South Carolina, Georgia, Alabama and Florida. The State tax was $75,000 and the United States internal revenue tax $17,500.

BOTHA BAFFLED LORD ROBERTS.

After Two Days' Fighting Withdrew His Forces Without Serious Loss.

BOERS STILL AGGRESSIVE.

A Sharp Skirmish With Gen. Rundle at Ficksburg--British Forced to Retire. Regiment of Buller's Command Annihilated by the Boers.

By Cable to the Morning Star.

LONDON, June 15, 3.30 A. M.—That Commandant General Louis Botha should have been able to stand for two days against Lord Roberts and then to retreat without losing any guns or having any of his men captured, is taken to mean that he has a force which the British must still reckon as formidable when acting defensively.

The pacification of the whole of the Transvaal, especially the wide spaces far from the railways, is looked upon as a business requiring months rather than weeks. Meanwhile everything goes well for the British arms. A Boer bulletin, issued June 12th, at Machadodorp, said:

"Both wings of the Federal forces touched the advancing enemy yesterday at 10 o'clock, east of Pretoria. Fighting continued until dark. The enemy, though in overwhelming numbers, were checked along a line of thirty six miles and the burghers succeeded in driving back their right wing five miles. Two burghers were killed and ten wounded."

Another Machadodorp announcement is that the first regiment of Gen. Buller's force to attack Almonds Nek was "annihilated;" but as the British were in overwhelming force the burghers were compelled to abandon the nek.

General Buller will be unable to advance further until he gets supplies. He will probably wait until the tunnel has been cleared.

General Rundle had a sharp skirmish at Ficksburg on June 12th. The Boers had been aggressive along the whole Ficksburg-Senekal line and menaced Ficksburg in force. The British outposts have retired to the village. General Rundle held the attention of the Boers in front with two guns, while the Yeomanry were sent around to their rear and drove them off, with a loss to the British of three wounded. Two patrols were also wounded.

President Steyn is at Uitkop. His presence there is supposed to account for the Boer activity.

Still Fighting Botha.

LONDON, June 14.—Lord Roberts reports to the War Office, under date of Pretoria, June 13th, 9.55 A. M., as follows:

"Methuen advanced to Honing Spruit yesterday and found all quiet. Kroonstad is strongly held. Methuen returned to-day to Rhenoster river, where the railway is being repaired. We were engaged all yesterday with Botha's army. The enemy fought with considerable determination and held our cavalry on both flanks; but Ian Hamilton, assisted by the Guards brigade of Pole-Carew's division, pushing forward, took the hill in his front, which caused the enemy to fall back on their second position to the eastward. This they are still holding. It is slightly higher than the one we have captured.

"The great extent of country which has to be covered under modern conditions of warfare renders progress very slow.

"Details of the casualties have not reached me, but I understand they are moderate in number. The only further casualties reported to date are two officers wounded."

INSTRUCTED FOR BRYAN.

Georgia's Delegation to the Democratic National Convention—The Chicago Platform Endorsed

By Telegraph to the Morning Star.

ATLANTA, GA., June 14.—Georgia's delegation to the Kansas City convention which was chosen in the State Democratic convention here to-day was instructed to cast its vote for W. J. Bryan as the presidential nominee from the Democratic party.

There was considerable enthusiasm at the mention of the Nebraskan's name and the Democratic party in Georgia showed itself to be a unit for his selection.

The platform which the convention adopted endorsed the Chicago platform of 1896 and declared against the national policies of the Republican party. An amendment to the Federal constitution for the election of United States Senators by the people was demanded. The construction of the Nicaragua canal was advocated. The gold standard was denounced. The repeal of the war revenue tax act was demanded. Trusts were condemned and denounced as unlawful combinations and legislation was demanded looking to the prevention of such utilization of capital. Tariff for revenue only was advocated and the repeal of the present tariff act was demanded.
